

Dragonbreath

By: Ursula Vernon

Book Review by: Jack J.

Danny and Wendell are two friends who go on adventures together. Even though Wendell can be a buzzkill at times, he always sticks with Danny. A funny part is when Danny tries to breathe fire but ends up with an ashy taste in his mouth. I guess when his dad tells him to think hot thoughts he can't do that because his mind is full with his imaginary animals, Snorkelbats!

Why did you like this book? It's adventurous with moments of comedy too!

Why should someone read it? People should read it because it's funny and it'll keep you at the edge of your seat the whole time!
